## Table No.

## Page No.

1. Federal order minimum class and blend prices for milk of 3.5 percent butterfat content, f.o.b. market or other indicated point, and butterfat differentials, October . . . . .	4
2. Federal order minimum Class I and blend prices for milk of 3.5 percent butterfat content, f.o.b. market or other indicated point, January-October averages . . . . .	6
3. Number of producers delivering milk to handlers regulated under Federal orders, total deliveries, and average daily deliveries per producer, October. . . . .	8
4. Producer milk deliveries used in Class I and Gross Class I sales by handlers regulated under Federal orders, October . . . . .	10
5. Producer milk deliveries to handlers regulated under Federal orders and deliveries used in Class I, January-October . . . . .	12
6. Total fluid items, whole milk, skim milk items, milk and cream mixtures, and cream sold in marketing areas defined by Federal milk orders, for markets where such information is available, September 1964, with comparisons . . . . .	14
7. Federal milk order Class I formula price information, October 1964. . . . .	18
8. Prices and economic indexes used in Federal milk order formulas to determine October 1964 prices, with comparisons . . . . .	19
9. Federal order base and excess prices for milk of 3.5 percent butterfat content, October . . . . .	20
9a. Seasonal incentive fund included under various Federal milk orders, October . . . . .	20

MAJOR ORDER ACTIONS, OCTOBER 1964Amendments:

Central Arkansas and Fort Smith (October 1). Class I price is increased 25 cents for the months of October and November 1964, and 15 cents for each month of December 1964 through March 1965.

Connecticut (October 1). Changes in handler definition pertaining to cooperative associations; revisions in pooling provisions; supply-demand adjustment factor to be based on the most recent three months, instead of the most recent two months; changes in zone differentials; other conforming changes.

Eastern Colorado (October 1). Two or more cooperative associations may combine deliveries to pool plants for calculating the amount of milk which they may divert jointly as producer milk.

Kansas City (October 9). Class I price is increased 10 cents October 9, 1964 through February 28, 1965. This will increase the Class I price for St. Joseph which is based on the Kansas City price.

Massachusetts-Rhode Island (October 1). Merger of Boston, Springfield, Worcester, and Southeastern New England. New consolidated order is similar to the Boston order with major revisions in provisions for pool plants, classification, pricing farm location and zone differentials, accounting and reporting, marketing service, and expense of administration. Class prices are announced on a 3.5 percent, rather than a 3.7 percent butterfat basis; and, skim milk and butterfat accounting.

Memphis (October 1). Class I price is increased 15 cents October 1964 through March 1965.

North Texas (October 1). Class I price is increased 10 cents October 1964 through March 1965. This will also increase the Class I prices for the Austin-Waco, Corpus Christi, Lubbock-Plainview, Central West Texas, and San Antonio markets which use the North Texas Class I price as a basis.

Oklahoma Metropolitan (October 9). Class I price is increased 10 cents October 9, 1964 through March 31, 1965. This will also increase the Class I price for Red River Valley.

Paducah (October 1). Class I price is increased 15 cents October 1964 through March 1965.

St. Louis (October 1). Class I price is increased 15 cents October 1964 through March 1965. This will also increase the Class I prices for the Suburban St. Louis and Ozarks markets.

Suspension:

Southern Michigan (October 1). Action suspends the requirement that diverted receipts for manufacturing use from a cooperative association, that operates no plant, in excess of one-third of deliveries by the cooperative to distributing plants, be included with other receipts in determining pool plant qualification.

HighlightsOctober 1964

Producer Deliveries. A total of 150,244 producers delivered 3.9 billion pounds of milk to regulated handlers in 69 comparable markets 1/. This represents an increase of 1.4 percent over producer deliveries in October 1963. Average daily delivery per producer increased from 790 pounds in October 1963 to 844 pounds in October of this year. Producer numbers, producer deliveries, average butterfat percentages, and average daily deliveries per producer for individual markets are shown on table 3.

Producer Deliveries used in Class I. The volume of producer deliveries used in Class I in 69 markets increased 1.6 percent from last year, to a total of 2.7 billion pounds for the month of October 1964. The average utilization percentage for October was 69 percent. Thirty markets showed an increase in the utilization percentage, three showed no change, and the remaining 36 markets showed a decrease (see table 4).

Gross Class I sales, which include total Class I sales, in-and-out of defined marketing areas by regulated handlers, increased 0.8 percent in the 69 markets for the month of October.

Minimum Prices. The weighted average Class I price paid by handlers in the 69 markets for 3.5 percent milk was \$5.05 per hundredweight, six cents higher than the \$4.99 per hundredweight price in October 1963. Minimum Class I prices for October were higher in 63 markets and lower in the remaining six markets.

Producers in the 69 markets received a weighted average blend price of \$4.53 per hundredweight for 3.5 percent milk. This is eight cents higher than the October 1963 blend price of \$4.45. Producers received higher blend prices in 58 markets, the same price in two markets, and a lower price in the remaining nine markets. Class prices, blend prices, and associated butterfat differentials, by markets are reported on table 1.

Whole Milk Sales. Total in-area whole milk sales for October 1964 in 71 marketing areas are estimated to be about 1.9 billion pounds, 1.9 percent above such sales in October of last year. Complete September in-area sales data for total fluid items, and for the four major fluid product groupings (whole milk, skim milk items, mixtures, and cream), are reported on table 6.

YEAR TO DATE

Minimum Prices. The weighted average Class I price for the January-October period for the 69 markets was \$4.78, six cents higher than the \$4.72 price in 1963. The 1964 weighted average blend price was \$4.12, seven cents higher than the blend price of \$4.05 reported for this period in 1963 (see table 2).

Producer Deliveries and Deliveries Used in Class I. Milk deliveries and deliveries used in Class I are reported for individual markets on table 5. In the first ten months of this year, compared to the same period in 1963, producer receipts for the 69 markets were up 2.0 percent, and receipts used in Class I were up 2.1 percent. Data for the 69 markets and for all markets are summarized below.

## Producer Milk Deliveries and Deliveries Used in Class I, January-October

Markets	Producer deliveries			Deliveries used in Class I		
	1964	Change from 1963 2/	1964	Change from 1963 2/	1,000 lb.	Percent
	1,000 lb.	1,000 lb.	Percent	1,000 lb.	1,000 lb.	Percent
69 "Comparable" markets 1/	41,640,072	+ 818,872	+ 2.0	25,063,258	+ 512,383	+ 2.1
8 "Expanded" markets*	3,812,796	+ 330,083	+ 9.5	3,006,324	+ 324,575	+12.1
2 "Terminated" markets 3/	4/ 200,399	5/- 23,793	---	4/ 153,727	5/- 9,339	---
79 "All" markets	45,653,267	+1,125,162	+ 2.5	28,223,309	+827,619	+ 3.0

\* Delaware Valley, Tri-State, Columbus, Indianapolis, Memphis, Central Arkansas, Western Colorado, and Colorado Springs-Pueblo.

1/ Markets under continuous regulation since January 1, 1963, which have had no significant marketing area expansion. 2/ February 1964 data adjusted to 28 days before computing changes in both pounds and percentages. 3/ Central Mississippi and Mississippi Gulf Coast terminated September 1, 1964.

4/ January-August. 5/ January-August 1964 compared to January-October 1963.

1/ Volumes include 29-day totals for February 1964. The percentage changes are based on adjusted 28-day totals for February 1964 to make them comparable with 1963.

2/ Markets under regulation on January 1, 1963, and which have had no significant marketing area expansions. Excludes Delaware Valley, Tri-State, Columbus, Indianapolis, Memphis, Central Arkansas, Western Colorado, and Colorado Springs-Pueblo; Central Mississippi and Mississippi Gulf Coast which were terminated September 1, 1964.

3/ Class I plus Class II = 5,186,021 thousand pounds in 1964 and 5,124,332 thousand pounds in 1963; utilization = 53% in 1964 and 52% in 1963.

4/ Class I plus packaged fluid cream = 2,222,527 thousand pounds in 1964 and 2,203,379 thousand pounds in 1963; utilization equals 44% in 1964 and 44% in 1963.

5/ January through August.

6/ January through October.

1/ Daily averages reported for Boston, Springfield, and Worcester exclude cream items for which data are not currently available. Cream sales in these markets also are excluded from the total for 74 combined areas.

2/ Plain, flavored, and fluid equivalent of concentrated.

3/ The percentage changes are based on adjusted 28-day totals for February 1964 to make them comparable with 1963.

4/ Sales for marketing area as defined after 1963 amendment.

5/ Sales for marketing area as defined prior to 1964 amendment.

6/ Plain, fortified, and flavored skim and part skim milk, buttermilk, and cultured specialties.

7/ Excludes Boston, Springfield, and Worcester.

8/ Small amount of sales estimated.
